HENRY GEORGE DEAD

Death Stalks Upon the New York Political Turmoil.

HIS DEMISE WAS VERY SUDDEN.

Death Thought to Have Been Due to Apoplexy Brought on by the Awful Burden of the Campaign Through Which He Was Passing—His Son Succeeds Him on the Ticket.

NEW YORK, Oct. 30.—Henry George, the candidate of the Jeffersonian Democracy for mayor of Greater New York died in the Union Square hotel at 4:45 o'clock yesterday morning. Death is thought to have been due to apoplexy.

HENRY GEORGE.

Mr. George arrived at the hotel about 1 o'clock in the morning. He had just come from several large massmeetings in the boroughs of Queens and Manhattan. The work of the night seemed to have told on him. He complained of being tired, but his friends and relatives who awaited him, thought it only the natural fatigue that follows such hard campaign work as Mr. George had been doing. Not long after reaching the hotel he retired. Mrs. George awaited him in Room 23 of the hotel. It was about 3:30 o'clock when Mrs. George was awakened. She found Mr. George sitting in an armchair.

"I am not feeling quite comfortable," said Mr. George to his wife.

"Won't you go back to bed?" inquired Mrs. George, anxiously.

"I will sit here awhile," was the answer.

Mrs. George at once grew anxious as to her husband's condition. Mr. George gradually grew incoherent and lapsed into semi-consciousness. Mrs. George was now thoroughly alarmed and called her son, Henry George, Jr., from an adjoining room. Frank Stevens was also called in. Mr. George was now unconscious. A call was sent to Dr. Kelly of 117 East Fifty-ninth street, and he came without delay. Mr. George was still unconscious. All efforts to revive him failed. Without sign of recognition to those around him he passed peacefully away at 4:45 o'clock. Mrs. George was prostrated and was cared for by the friends of the family at the hotel.

Mr. George has not been strong for the past three years, and his son, Henry George, Jr., has been his companion in almost every enterprise in which he has engaged, going with him on his tours of the west as a special newspaper correspondent in the last presidential campaign, and keeping close at his side in his movements in the campaign. Within the past day or two close friends of Mr. George noted with apprehension marked changes in his appearance and manner. His eyes grew dull. Wrinkles came at the corners and his eyes sunk in hollow caverns. His voice, usually resonant and pleasant, now pitched almost to piping treble in conversations, was querulous, while he seemed like one whose nerves were so highly wrought that they might snap without warning. The pace of the campaign was harder than this man, high strung and sensitive, could maintain.

The committee in charge of the funeral ceremonies of Henry George have arranged the following order of services: "From sunrise on Sunday, Oct. 31, till sunset of the same day, the body of the great leader will lie in state in the Grand Central Palace. Ushers will be present to direct the people in their passage before the platform upon which the body will rest, every one who feels the nobility and single-heartedness of Henry George's life work is invited to be present at this ceremony.

"During the afternoon, beginning at 3 o'clock the funeral services and orations will take place. "The funeral car will start from the Grand Central Palace at 7 o'clock on Sunday evening and proceed by a route to be announced later, via the Brooklyn bridge to the Brooklyn city hall. In this informal procession every friend and admirer of Henry George is invited to take part.

The committee earnestly requests that no torches or transparencies be displayed. Banners without mottoes designating the organizations may be carried.

"All labor organizations intending to take part in the procession of Sunday evening are requested to communicate at once with John Brisben Walker, chief marshal."

The pallbearers have not yet been selected. Mr. George was an Episcopalian, but was not very regular in his attendance at church. His widow is a Catholic, and it was often said that her husband intended to embrace Catholicism.

The widow and her daughters remained in the room with the dead until 10 o'clock, when they were induced to retire for much-needed rest.

Mrs. George is bearing up well under the strain, but her friends fear that she will soon give way. There is talk of taking her out of town immediately after the funeral. A guard of honor, composed of prominent George men, will watch the dead body until its interment.

Henry George was born at Philadelphia Sept. 2, 1839. He received a common school education and then went into a countingroom. He was also a sailor, and afterward learned the printer's trade. In 1858 he reached California, where he worked at the printer's case until 1866, when he became a reporter and afterward editor, working at different times on the San Francisco Times and Post. He returned to New York in 1880 and went to England and Ireland the following year, where he was twice arrested as a suspect, but afterward released when his identity became established.

Mr. George is best known to the world at large through his writings upon economic questions, notably his work entitled "Progress and Poverty," published in 1871. His other works are "Our Land and Land Policy," 1871; "Irish Land Question," 1881; "Social Problems," 1883; "Property in Land," a controversy with the Duke of Argyle, 1884; "The Condition of Labor," an open letter to Pope Leo XIII, 1891, and a "Perplexed Philosopher" (Herbert Spencer), 1893.

In 1886 Mr. George was nominated by the United Labor party for mayor of New York, polling 68,000 votes, against 90,000 for Abram S. Hewitt, the Democratic nominee, and 60,000 for Theodore Roosevelt, now assistant secretary of the navy, Republican.

After his nomination for mayor by the Jeffersonian Democrats a month ago, Mr. George made an extremely active canvass, speaking several times every evening and working from early to late at his headquarters.

He gave to the campaign its most sensational incidents, its attacks on Richard Croker and Senator Platt, whom he threatened to prosecute for various crimes, such as levying blackmail upon city contractors and aspirants for office, should he be elected mayor. His candidacy gave to the coming election its greatest element of uncertainty, for, according to expert politicians, it was practically impossible to estimate how much of Bryan's vote of last year would go to George instead of Van Wyck.

At a meeting of the executive committee of the Jeffersonian Democracy yesterday afternoon Henry George, Jr., was nominated to take his father's place on the ticket as candidate for mayor of Greater New York. Henry George, Jr., legally drops the "junior" at his father's death. The ballot can, therefore, probably be voted as it stands, without change. Young George is unknown, except to a small circle of his own and his father's friends. If he should be elected, it would be done as a tribute to his father's memory and because of the sentiment clinging to the name.

CHICAGO, Oct. 30.—Miss Marie Hitch of Chicago, who is to be married to Henry George, Jr., received a telegram from her fiance, notifying her of the death of his father. Miss Hitch and Henry George, Jr., have been engaged since last summer, and were to have been married on Thanksgiving day. Owing to the death of her fiance's father the marriage has been postponed indefinitely.

EIGHT WHALING VESSELS FROZEN IN. Upon Some of Them There Will Be Great Suffering if Not Starvation.

SAN FRANCISCO, Oct. 30.—Eight whalers are fast in the ice off Point Barrow, and on at least one of them, the Jeannie, there will be great suffering. Not only is the ship so far away that there is no chance to take her supplies, but her men, who are facing a good shortage, have no appliances with which to make shore—over more than 150 miles of ice.

The full list of the vessels known to be fast in the close-in, in addition to the Jeannie, are the Newport, Orca, Jesse Freeman, Belvedere, Fearless, Rosaria and Wanderer.

The news of this state of affairs in the whaling fleet was brought out of the Arctic by the steamer Kartuck, which was barely able to reach free water with her seven whales. The catch of the Kartuck is one of the heaviest of the season, although all of the whalers who had spoken had made some progress.

The Kartuck reports that none of those vessels which are stuck in the ice are close to any supply station and that there will be trouble for the men on board them is certain. The ships are separated and no communication was had with them by the steamer which escaped.

The total number of men on the vessels is 800. It is known that all the vessels were short of provisions, as they had expected to return to San Francisco this month.

The steam whalers Orca, Belvedere, Jesse H. Freeman and schooner Bosario were last heard of on Sept. 18, when they were solidly imbedded in a mass of ice cakes along the shore at Point Barrows.

PITTSBURG, Oct. 30.—The Union Trust company building, Nos. 335, 337 and 339 Fourth avenue, caught fire from an overheated smokestack at 10 o'clock yesterday morning, and in less than an hour the structure was in ruins. The building was occupied by the Union Trust company, Pittsburgh Stock Exchange, Fidelity and Casualty company, East Side Land company, executive committee for the triennial encampment of the Knights Templar, Durr's cafe and a large number of stock brokers. The occupants were unable to save anything but their books.

The Kartuck reports that none of those vessels which are stuck in the ice are close to any supply station and that there will be trouble for the men on board them is certain. The ships are separated and no communication was had with them by the steamer which escaped.

The total number of men on the vessels is 800. It is known that all the vessels were short of provisions, as they had expected to return to San Francisco this month.

THANKSGIVING PROCLAMATION. The First One Issued by President McKinley.

WASHINGTON, Oct. 30.—President McKinley has issued his first Thanksgiving day proclamation, as follows:

In remembrance of God's goodness to us during the past year, which has been so abundant, let us offer unto Him our thanksgiving and pay our vows unto the most high." Under His watchful providence industry has prospered, the conditions of labor have been improved, the rewards of the husbandman have been increased and the comforts of our homes multiplied. His mighty hand has preserved peace and protected the nation. Respect for law and order has been strengthened, love of free institutions cherished and all sections of our beloved country brought into closer bonds of fraternal regard and generous co-operation.

For these great benefits it is our duty to praise the Lord in a spirit of humility and gratitude and to offer up to Him our most earnest supplications. That we may acknowledge our obligations as a people to Him who has so graciously granted us the blessings of free government and material prosperity I, William McKinley, president of the United States, do hereby designate and set apart Thursday, the 25th day of November, for national Thanksgiving and prayer, which all of the people are invited to observe with appropriate religious services in their respective places of worship. On this day of rejoicing and domestic reunion let our prayers ascend to the giver of every good and perfect gift, for the continuance of His love and favor to us that our hearts may be filled with charity and good will, and that we may be ever worthy of His beneficent concern.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this 29th day of October, in the year of our Lord, one thousand eight hundred and ninety-seven, and of the Independence of the United States, the one hundred and twenty-second.

WILLIAM MCKINLEY.

JOHN SHERMAN, Secretary of State.

ALLEGED WHITE CAP WARNING.

An Indianan Finds a Notice Posted on His Front Door.

CROWN POINT, Ind., Oct. 30.—St. John's township, this county, is again stirred up over another alleged White Cap scare. Charles Jager yesterday morning discovered a notice posted on his front door ordering him to leave the community at once or suffer a coat of tar and feathers besides a whipping. This notice was signed "St. John White Caps," and was written in a feminine hand.

Jager is badly frightened, and he has announced his purpose of removing to this city in order to avoid a possible unpleasant meeting with the newly organized regulators.

It is now alleged that on the day that Jager accused Charles Meyers of attempting to assault his daughter, he was intoxicated, and that it was easy for him to imagine that some harm was contemplated, when, in fact, Meyers was only shaking hands with the two girls. Meyers is still in jail under \$500 bonds, but it is now said that the villagers are satisfied of his innocence and will secure bail for him.

Death From a Sting.

MONTZUMA, Ind., Oct. 30.—Pearl Clinard of West Union died yesterday afternoon. His death was due to a envious curse. A week ago, while picking up apples, he was stung on the finger by some insect, but he paid so little attention to it as not even to notice what it was, but later thought it might have been a caterpillar. Soon his hand and arm began to swell and gangrene set in. In an effort to save his life his arm was amputated on Tuesday, but he sank into stupor and died. His body was swollen to horrible proportions.

Gen. Longstreet Succeeds Wade Hampton.

WASHINGTON, Oct. 30.—The president has appointed James Longstreet of Georgia commissioner of railroads, vice Wade Hampton, resigned. General Longstreet is the famous confederate general, who has been prominent in the south since the war as one of the leading Republicans. He was a devoted friend of President Grant and has before held office under Republican administrations. General Longstreet was recently married to a young woman of Georgia.

Beaten and Robbed by Tramps.

WASHINGTON, Ind., Oct. 30.—Simpson Sears of Bedford, this state, was terribly beaten up and robbed by three tramps east of town last night. The tramps choked and beat him over the head with a railroad coupling pin. They got \$3.

Cigarette Blend Kills Himself.

FRANFORT, Ind., Oct. 30.—Oscar Fifer, a young man, 28 years old, whose home until a few months ago was in Anderson, committed suicide in this city yesterday, taking 25 grains of morphine. He was a confirmed cigarette smoker, and being unable to shake off the habit, ended his troubles in death.

Killed by a Nostrum.

PORTLAND, Ind., Oct. 30.—An attempt was made to relieve young William Critton of Dunkirk from an attack of asthma by giving him some patent nostrum. The first dose relieved him, but the following ones produced death in a few hours.

Killed by a Train.

NEWCASTLE, Ind., Oct. 30.—Charles Mullin, 23 years old and unmarried, son of Joseph R. Mullin of this city, was run over and killed by a big freight train near Emporia yesterday.

The death rate compared to previous days has been exceedingly light.

DEMOCRATS, don't let anything keep you from voting next Tuesday.

THERE should not be a single "stay-at-home" Democrat on election day.

DEMOCRATS, vote early next Tuesday, and then go after any of your neighbors who are slow in getting about.

LET the old time Democratic vote be cast next Tuesday and an old time Democratic victory may confidently be relied upon.

A VOTER who doesn't vote a straight ticket should stamp the X in the small square immediately following, and at the right of the name of each candidate he votes for. Don't forget this next Tuesday.

MR. OLIVER HORD, Democratic nominee for County Surveyor, will have a walk-over Tuesday. He is an upright and popular young man, well qualified for the position, and in every way worthy of your support.

THE BRYAN SILVER DOLLAR.

The Washington Post (Independent) thus defuses the silver dollar that is the subject of so many silly flings by the pudding-headed editors of Mark Hanna's subsidized press:

Mr. Bryan's silver dollar, if he happens to have a specimen of that coin on hand, is just like Mr. Vanderbilt's, Mr. Morgan's, or Mr. Astor's silver dollar, and is identical with the dollar paid to the laborer by his employer. It is the dollar that Congress, as the agent of the people, created for the people, and the assertion that it takes two such dollars to buy a bushel of wheat is false. The Bryan dollar, the 16 to 1 dollar, the dollar that, in the shape of its paper proxy, is in the hands alike of "the masses and the classes," will buy just as much wheat or any other commodity as a gold dollar. It stood at its face value, reckoned by the gold standard, when gold was going out of the country by the million on every departing trans-Atlantic steamer. The parity was kept intact when the treasury gold reserve was run down to near \$50,000,000. Why? Simply because the faith and credit of the Nation held it up. It was not because the silver certificates could have been exchanged for gold, as no such exchange could have been possible. Even if the administration had desired to pay out gold for notes made payable in silver it could not have done so. Nor could the McKinley administration stand a run for gold in payment of silver obligations. Our financial structure, therefore, rests chiefly on the confidence of the business world in the honesty of the people and their ability to keep their promise.

But the fact that the Government has thus far been able to hold its "Bryan dollar" up to a parity with gold does not seem to us to be a good reason for assaults on that dollar. The enormous stake which this Nation has in silver—in the coinage, in bullion, and in the mines—should admonish patriotic citizens that a slump in the price of silver is not a thing for jokes. It seems to us that there is danger in this assault on our currency. If kept up with the present vigor it will have one of two results—it will either break down the parity and bring on a panic or it will give dangerous strength to the flat heresy. Neither of these results can be contemplated with cheerfulness, but one of them will come if the war on silver is persistently pushed. The advocates of sound money, whether they believe in the gold standard or in international bimetallism, are as much interested in silver as are their opponents. Every decline in the price of silver is a misfortune to the government and the people of the United States.

"GREATEST LIVING CURIOSITY"

In Maysville This Season" is Senator Deboe, According to Dr. Hunter. Friday's Meeting.

Senator Deboe, Dr. Hunter, Candidate Bailey, Judge Denny and the rest of the Republicans who have been making a tour of the State this week were thirty minutes late arriving here Friday morning.

Their reception at the court house was rather chilly. A large crowd was present, but many of them out of mere curiosity, and there was no enthusiasm. A feeble cheer was given on the appearance of the crowd.

The speaking was done by Mr. Bailey and Judge Denny.

Dr. Hunter was introduced by Mr. Milton Johnson, but said he was suffering from an "infirmity of the throat," and talked but a few minutes. He said they had with them "the greatest living curiosity that had been seen in Maysville this year,—Dr. Deboe, Kentucky's first Republican Senator." The Senator never cracked a smile at this, and the crowd didn't seem to catch on.

Candidate Bailey appeared to think he was the whole show. He started out by telling how many speeches he had made this week, and offered this as an excuse for not making one here, but he continued at some length, much longer than the crowd cared to listen to him.

Judge Denny was about the best in the aggregation.

The visitors were escorted from and to the train by Messrs. Clarence Mathews and Sam T. Hickman of the Executive Committee, Mr. Milton Johnson, Senator Runyan and Judge Hutchins. Quite a crowd was on the street at the court house when the carriages drove up and the party got out, but the visitors were received in silence.

RICHMOND, Ky., Oct. 29.—Senator Deboe was a sore disappointment to even the Republicans, who are much chagrined at his speech here last night, which any nail-keg orator at a country store could have excelled.

Denny, who also "made a few remarks," appealed strongly to the sound money Democrats to stand with the Republicans, as they did last year, and give free silver its death-blow in Kentucky. His speech provoked no enthusiasm. On the whole, the demonstration here was a fizzle, and as a vote-maker was a conspicuous failure.

PROMISES RECALLED.

Like Pie Crust They Have Been Easily Broken.

[Pikeville Banner.]

Quite a number of Pike County's voters will remember the promises Lieutenant Governor Worthington made during his speech at the Pikeville courthouse in the State campaign of 1895. He said in substance the school teachers would get better pay, and would be paid more promptly; that taxes would be lowered and things generally would get a move on, provided Bradley, Worthington and Co. were elected to the State offices.

Voters, how have these promises been fulfilled? Teachers have received 60 cents less for each pupil, and that not paid as promptly as before. Taxes have been raised "ten cents on the hundred," which is equivalent to nearly 25 per cent. of the State's taxes, and there is less money than ever in the hands of the people with which to pay these taxes.

We wish to ask the good people of Pike County who heard the above named speech to call up just as much of it as possible between now and election day.

DOVER News: "Deputy Sheriff Sam Perrine was in Dover Tuesday on business. Mr. Perrine stands on the Democratic ticket for Sheriff this time, and it goes without saying that he will secure the office, for the people know him, and they know there is not a more capable or clever gentleman on this side of the earth."

THE formal announcement of City Clerk Charles E. Brosee appears elsewhere. He is one of Maysville's most faithful officials, having discharged his duties with credit to himself and to the city. The creditable record he has made is a guarantee of faithful and efficient service in the future, and he respectfully asks your support.

THE Darby Oil Gas Burner Company at Cincinnati has been attached to satisfy a claim of Dr. McGarry for \$500. He paid the company that much cash and gave his note for \$1,000 for the right to sell the patent burners in the State of California. He did so, he says, on the representation that the burners would only burn one gallon of oil in ten hours and would not carbonize. It is charged that those representations were false and fraudulent, because he has found that the burners consume as much as a gallon in two or three hours and will carbonize. He therefore asks for the \$500 cash he paid and a cancellation of the notes for \$1,000. The attachment was issued on an affidavit that the debt was contracted fraudulently, because he has found that the burners consume as much as a gallon in two or three hours and will carbonize.

The Opening Reception Last Night—The Rally To-morrow Afternoon.

Last night's social was one of the most enjoyable in the history of the association. The rooms were appropriately decorated with flowers and evergreens. Refreshments were served in that elegant manner which is characteristic of Maysville ladies. The welcome address was made by Mr. Allan Cole in his pleasing and eloquent style. The educational, religious and physical work were ably discussed by Messrs. Gabby, Berry and Easton. The timely remarks of the faithful Secretary, Mr. Canfield, were inspiring to all. A large crowd was present. The members of the Ladies Committee, who have interested themselves in this work, certainly deserve great credit for the successful way in which their part of the social was conducted. The program rendered was published Thursday.

Sunday's rally will be led by Mr. William H. Cox. Subject, "Loyalty to Our State." A vocal solo will be rendered by Miss Katie Simmons, of Aberdeen. All are cordially invited.

In the stock of fine Clothing we recently bought by electric light. There is so much clap-trap Clothing advertising in vogue at present that we refrained from saying too much about this purchase. We simply called your attention to it and said look in our window display, see the goods and note the CASH price on them. We knew we would sell some of them; the continued warm weather left a doubt as to selling a great many now. The doubt is dispelled. Since the day we opened this purchase and made our window display our store has been crowded with customers anxious to secure these unheard-of bargains.

We advise our friends who contemplate buying a Fall or Winter Suit and Overcoat not to let this opportunity slip. It is only one in a long time where circumstances arise that enable merchants to secure

When any part of the body isn't doing the work that nature intended it to do, it puts the whole system out of tune—out of harmony. Sickness in one part of the body is likely to run into all parts of the body. When children stand a row by upsetting one brick. That is exactly what happens to the health when the bowels fail to perform their proper functions. Constipation makes trouble all along the line—puts the liver out of order, is bad for the kidneys—bad for the stomach. It holds in the body poisons, mucus, and because it cannot go a yonder else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, lassitude, bad breath and foul taste in the mouth, fills the stomach with gas and causes wind, belching, stops digestion in the stomach, causes sour stomach, heartburn and headache. You can avoid all such trouble, for Dr. Pierce's Pleasant Pellets cure constipation and its attendant evils.

BLIZZARD'S VICTIMS.

Men and Women Were Frozen to Death in the Colorado Storm.

DENVER, Oct. 30.—Two Rock Island trains left Kansas City 24 hours apart and arrived here within a few minutes of each other. They were delayed near Limon Junction, where, the trainmen say, six miles of track were covered with 20 feet of snow. Wires were down and for 48 hours the whereabouts of the trains was not known.

Word has just reached here from Elbert, Colo., of the death by freezing during the recent blizzard of Mrs. Laura Hunter, 10 miles east of here. She had left her home to visit a neighbor, and was overcome 300 yards from her home. Near Monument, Colo., John Ranch was found frozen in the snow. The deceased was working with a threshing crew which left Howard Williams' ranch on Monday. He did not go with the crew, but followed after it on foot and became bewildered and perished.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at J. J. Wood's drug store.

River News.

The Pittsburg tow-boats will nearly all enter upon the season's work thoroughly repaired. The docks are all busy, and have been for several months. The marine ways at Elizabeth have had as many as six boats out of the water at a time, says the Pittsburg News. The boats that needed no more serious attention were given a coat of paint along with the others, and the fleet will present a pretty appearance, until the white paint becomes smoke-begrimed by a few months service.

The Cincinnati packets have been overhauled and repainted, and will enter upon the fall trade in better condition than ever before.

IN MEMORIAM.

Miss Faunie A. Bronough was born in Washington, Mason County, Ky., October 5th, 1862. She died of malarial fever in Hopkinsville, Ky., October 22nd, 1897, aged sixty-eight years. Noted for her usefulness and thoughtfulness for others, her first cousin, who have been closely associated with her for twelve years, feel that a good advantage in having me a good example in everything. She was noted for her bright happy disposition, always making the best of everything that came up in her life. She possessed a strong mind, was highly educated, which in connection with her sweet and lovely disposition, made her very entertaining. All of her relatives loved her very dearly. Her mind was clear to the last. She exhibited perfect resignation and submission, and passed quietly and peacefully away. She is laid to rest by the side of relatives in Hopewell Cemetery in Hopkinsville, Ky.

Asleep in Jesus, blessed sleep,
From which none ever wake to weep;
A calm and undisturbed repose,
Unbroken by the last of foes.

Asleep in Jesus, O for me,
May such a blissful refuge be;
Sorely shall my ashes lie,
And wait the summous from on high.

OBJECTION TO THE COLOR.

Pistol and Club Used in a Quarrel Over Window Curtains.

ENGLISH, Ind., Oct. 30.—Because Mr. Fordyce, proprietor of the Central House at West Fork, failed to place white curtains, instead of cream colored ones, at the windows of his brother Charles' room, the latter entered the office yesterday afternoon and threatened to kill him. He fired one shot, which cut Fordyce's clothing at the hip and burned the skin. Before he could do more, Fordyce's wife hit him with a club.

When revived he was taken to Squire Campbell's office, where he was compelled to give \$500 bond to keep the peace, his brother refusing to prosecute further. Charles' sweetheart had laughed at the cream colored curtains.

ADVICE TO THE W. C. T. U.

Physical Culture Lecturer Endorses Paine's Celery Compound.

Miss Lucy H. Hitchcock, lecturer, Department of Physical Culture, Woman's Christian Temperance Union, Vermont, wrote on May 16, last:

"It affords me pleasure to add my testimony with others regarding the healing effects of Paine's Celery Compound upon an exhausted nervous system."

Aug. 12, 1897, she wrote: "As a rule I do not endorse medicines, but I believe Paine's Celery Compound to be of a different order from the ordinary medicines. Facts cannot be disputed. I have derived so much benefit from the Compound that I am glad to heartily recommend it, hoping others similarly afflicted may be relieved. Any medicine that will relieve suffering humanity is a blessing to the world."

A blessing to the world!

Paine's Celery Compound has been proven to be the one great remedy that really makes people well. This estimable woman, whose Christian work is earnestly directed toward the betterment of others, and whose eminence in the W. C. T. U. makes her advice of great value, plainly endorses Paine's Celery Compound.

The amount of poor health on every hand is something shocking to everyone who stops to think. Hundreds of men and women in every neighborhood are to-day carrying about with them a needless load of ailments that a thorough refreshing of their nerves, a purifying of their blood, more sleep and more regularity in the bodily functions would completely do away with. Paine's Celery Compound will do all this for sick and ailing men and women.

It is the beginning of neuralgia and rheumatism, the "all gone" and tired feelings show the immediate need of purifying the blood and refreshing the nerves. The direct and energetic way Paine's Celery Compound overcomes sick and nervous headaches, dyspepsia and heart troubles, as it does all other nervous disorders, has compelled the admiration of the medical world from the start.

Headaches, rheumatism, neuralgia, lifeless feelings, and debility can not persist when intelligently met and corrected by this greatest of nerve and brain strengtheners. No remedy ever kept the confidence of so large a body of inquiring men and women. Try it.
